

Stop the Metro

Brought to you by Concerned Citizens of Amherst and the Town of Tonawanda

Are you aware ? ...

The NFTA plans a rail expansion from Main St. To Kenmore Ave, down Niagara Falls Blvd., up Maple Rd. through Sweet Home Rd, through Audubon Pkwy. How this will affect home owners and businesses ?

- **Major road closures and re-routing of traffic through residential neighborhoods for extended periods of times. Minimal 2-year impact and beyond.**
- **Potential property/foundation damages with the usage of explosives for underground portion of rail system from Kenmore Ave upward to portions of Niagara Falls Blvd.**
- **Loss of or restrictive ability for businesses to operate during the construction phase.**
- **Environmental concerns with underground radon gas as well as health concerns with animal infestation throughout the construction zones.**
- **Property values declined.**
- **Estimate taxpayers cost for this extension 1 billion dollars with half a million in yearly upkeep.**
